

State of California - The Resources Agency
DEPARTMENT OF FISH AND GAME
2008 DEL NORTE ROOSEVELT ELK HUNT

General Information: Congratulations on receiving a tag for the Del Norte Roosevelt Elk Hunt! We hope that your hunt will be a successful one. This hunting opportunity is being provided on private land owned by Green Diamond Resource Company. As guests of the landowner, the continuance of this hunt depends on your cooperation with the personnel of the Department of Fish and Game (Department) and Green Diamond Resource Company.

Hunter Orientation: All tag holders will be required to attend an orientation meeting at **noon on Tuesday, August 26**, at the Rowdy Creek Gun Club. From Highway 101 at the Ray's Market in the town of Smith River, California, turn east onto Rowdy Creek Road. The Rowdy Creek Gun Club is located 1.5 miles up Rowdy Creek Road. Hunters are not allowed to enter the hunt area until after the orientation meeting. A detailed map of the hunt area will be available at the orientation meeting, courtesy of Green Diamond Resource Company, for a \$10.00 fee (cash only) to cover production costs.

Rules and Regulations: A more detailed list of rules and regulations will be provided to you at the orientation, but please be aware of the following items so you can plan accordingly:

1. Blaze orange vests are required and must be worn by hunters and non-hunting companions while in the hunt area.
2. Each permit holder may be accompanied by up to two non-hunters, neither of which may be in possession of firearms or bows and arrows. Hunters are strongly encouraged to bring at least one non-hunting companion to aid them in transporting game from the field.
3. Each permit holder may be in possession of only one legal firearm or bow while on the hunt area. No pistols or shotguns may be possessed.
4. Only one vehicle for each permit holder will be permitted on the hunt area.
5. Generally, only vehicles licensed for use on public roads are permitted in the hunt area, and trailers are not allowed in the hunt area. However, if approved by Green Diamond Resource Company personnel, trailers or all-terrain vehicles may be used to remove a harvested elk from the field.
6. Each hunter should have a shovel, ax or handsaw (no chainsaws), and fire extinguisher in the vehicle.
7. Horses or dogs are not permitted on the hunt area.
8. Camping is permitted on Green Diamond Resource Company land only at the Rowdy Creek Gun Club.
9. Fires of any kind are prohibited.
10. Hunting for species other than elk is prohibited.
11. The Department is collecting teeth from animals taken by hunters for age analysis. Successful hunters should follow directions on the tooth envelope included with this flyer to remove the two front teeth. Please do not wrap teeth in plastic or foil.

Travel Tips: Motels, trailer parks, private campgrounds and restaurants are available in Crescent City and the town of Smith River, both near the hunt area. Public camping facilities are located at Jedediah Smith Redwood State Park and Del Norte Redwood State Park near Crescent City, but they should be consulted regarding restrictions on firearms and the possession of game. Cold storage lockers for meat processing can be found in Eureka, Arcata and Crescent City.

Weather: Weather conditions are variable and may range from heavy rain and fog with cool temperatures through clear skies and warm temperatures.

Landscape: The topography in the hunting area is rugged. Much of the area is covered by dense forest interspersed with recently logged timber harvest units.

Additional Information: Roosevelt elk are large animals. The weight of adult bulls average over 660 pounds. Please consider that field dressing and transporting a harvested elk from the field can be very arduous work and no assistance will be given by Green Diamond Resource Company or Department employees. In addition, black bears are common in the hunt area so hunters should be prepared to avoid leaving a harvested carcass in the field overnight in a manner accessible to bears. Please be prepared to transport the carcass out of the field in a timely manner and properly hang those portions that must be left out overnight. We recommend that hunters who are inexperienced with handling game as large as elk acquire the knowledge needed to do so successfully prior to going out into the field. Department staff is available to answer questions that you may have, and information may be obtained from experienced hunters, sporting goods stores, and literature.

All hunters must return elk tags to the Department within one week after the close of the elk season regardless whether they harvested an elk. If you have any questions regarding this hunt, please contact Wildlife Management personnel at our Eureka office at 619 Second Street, Eureka, California 95501 or by telephone at (707) 445-6493. Information is also available at the Department's website www.dfg.ca.gov. **Please do not contact Green Diamond Resource Company.**

Again, congratulations and we hope you have an enjoyable hunt.
